NOTES

Notes

For more information, see the Center for Consumer Information and Oversight (CCIIO) Health Insurance Marketplaces resources [here](#).

Sources

Data compiled through review of Marketplace documents and communication between the states and CCIIO by KFF.

Definitions

State-based Marketplace (SBM): States running a State-based Marketplace are responsible for performing all marketplace functions for the individual market. Consumers in these states apply for and enroll in coverage through marketplace websites established and maintained by the states.

State-based Marketplace-Federal Platform (SBM-FP): These states are considered to have a State-based Marketplace, and are responsible for performing all marketplace functions for the individual market, except that the state will rely on the federal Healthcare.gov website for eligibility and enrollment functions. Consumers in these states apply for and enroll in coverage through Healthcare.gov.

Federally-facilitated Marketplace (FFM): In a Federally-facilitated Marketplace, HHS performs all Marketplace functions. Consumers in FFM states apply for and enroll in coverage through Healthcare.gov.

FOOTNOTES

1. State conducts plan management activities to support certification of qualified health plans.
